Letters from Readers . . .

I want to thank you for hosting the meeting today VIA the DARC room. I feel the platform was fantastic, the content was relevant, and very important to cover.

My hopes and informal suggestion that we do meetings VIA the air perhaps more frequently, especially during the pandemic and with our Club Membership being so spread out. The time of 3pm also was a great time to start (for me), because even being working nights, I was awake and able to attend between work shifts.

I feel perhaps more frequent meetings over air will help us keep the Meetings more brief and on track.

Thank you and have a great night.

Shannon | NØANC
